-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 9-11, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Skultin (U.S. Patent 1,689,161).

Skultin discloses an interchange having curved portions for each traffic lane in four directions (Figure 2, for example). Turning to the travel lane 3 in the upward direction from the bottom of Figure 2 for reference, there is at least one substantial right turn exit lane (splitting off at 4, becoming right most lane 2). Each direction includes this right turn exit lane configuration. Referring to the same travel lane 3 at the bottom of Figure 2, there is at least one merging area for traffic wishing to change a direction of travel similar to a left turn (left most lane 5 which splits off at location 4 from lane 3). This merging area becomes the second exit lane. Again, each direction of traffic lane includes this. Finally, as can be seen in Figure 1, the inner most lane 5 (i.e., the left turn/second exit lane) passes under the inner most lane 5 of traffic coming from the right hand orthogonal direction as the left turn/second exit lane makes a substantially 90 degree left turn. This is shown and described with respect to Figure 1 at location 7.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-8 and 14-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Skultin, as applied above.

Skultin does not teach the service area surrounded by traffic lanes; however, it is very well known to use service areas surrounded by traffic lanes (as done on turnpikes, for example). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have used an empty space surrounded by traffic lanes in Skultin in order to provide service for vehicles and drivers, as is well known.

***Response to Arguments***

Applicant's arguments filed March 17, 2005 have been fully considered but they are not persuasive. As discussed in the rejection above, all limitations are met.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3671

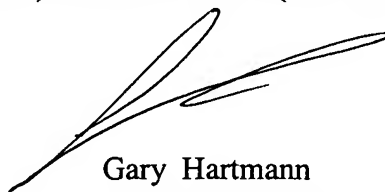

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
